

PAJERO SWB

SHORT WHEEL BASE

TAKE DAKAR ENGINEERING EVERYWHERE YOU GO

DRIVEN BEYOND LIMITATIONS

Satellite Navigation (Optional)

The brand new Mitsubishi Communication System (MiCS) not only offers state-of-the-art satellite navigation, but also provides a host of communication and entertainment features.

Multi-function Steering Wheel

Full Audio and Cruise Control to optimise your drive so you never have to take your hands off the wheel.

Super-select 4WD

2H (2WD High Range)

2H mode shifts you into rear wheel drive for smooth, quiet, fuel-efficient performance.

4HLc (4WD High Range with Centre Differential Locked)

Keeping you on track even in rugged or slippery conditions, the 4HLc mode distributes power equally to all 4 wheels for off-road excitement with a 50:50 split for a steady sense of control.

4H (4WD High Range)

Switch to 4H mode for added traction. The dynamic 33:67 front/rear torque split gives you greater control for high-speed driving.

4LLc (4WD Low Range with Centre Differential Locked)

Switch to 4LLc when you need all the tractor-like crawling power you can get. Maximised low-end torque pulls you through even the roughest terrain, thickest mud and deepest snow.

Warranty & Service Plan

- 3 Year/100,000km Manufacturer's Warranty
- 5 Year/100,000km Maintenance Plan
- Service intervals every 10,000km

PAJERO SPECIFICATIONS

SHORT WHEEL BASE

Pajero 3.2 Di-DC GLS 4X4 A/T
