

PAJERO LWB

LONG WHEEL BASE

TAKE DAKAR ENGINEERING EVERYWHERE YOU GO

DRIVEN BEYOND LIMITATIONS

Satellite Navigation (Optional)

The brand new Mitsubishi Communication System (MiCS) not only offers state-of-the-art satellite navigation, but also provides a host of communication and entertainment features.

Multi-function Steering Wheel

Full Audio and Cruise Control to optimise your drive so you never have to take your hands off the wheel.

Super Select 4WD

2H (2WD High Range)

2H mode shifts you into rear wheel drive for smooth, quiet, fuel-efficient performance.

4H (4WD High Range)

Switch to 4H mode for added traction. The dynamic 33:67 front/rear torque split gives you greater control for high-speed driving.

4HLc (4WD High Range with Centre Differential Locked)

Keeping you on track even in rugged or slippery conditions, the 4HLc mode distributes power equally to all 4 wheels for off-road excitement with a 50:50 split for a steady sense of control.

4LLc (4WD Low Range with Centre Differential Locked)

Switch to 4LLc when you need all the tractor-like crawling power you can get. Maximised low-end torque pulls you through even the roughest terrain, thickest mud and deepest snow.

Warranty & Service Plan

- 5 Year/100,000km Maintenance Plan
- Service intervals every 10,000km

PAJERO SPECIFICATIONS
